V1400

Technical specifications

Volume, l:	1400
Environmental conditions (t, °C / humidity, %):	befor +32/befor 60
Overall dimensions:	1300x760x2155
Temperature range, °C:	+3...+8
Power supply system, V/Hz:	230/50
Unit location:	lower
Power consumption, W, max.:	770
Defrost type:	Automatic with condensate evaporation system
Thermostat:	electronic control unit
Load capacity per shelf, kg:	42
Number of shelves:	10
Backlight:	LED vertical
Equipment group:	Visual
Door type:	Glass swing doors
Cabinet type:	medium-temperature
Material of the exterior cladding:	painted galvanized steel
Capacity of 0.5 litre bottles, pcs:	765
Capacity of 0.33 litre bottles, pcs:	1187

The manufacturer reserves the right to make changes that do not fundamentally affect the operational properties of the equipment without prior notice.
